Mr. Kevin Bilida
President
TALKING LASER COMPANY
13428 Maxella Avenue, #261
Marina Del Rey, CA 90292

Dear Kevin,

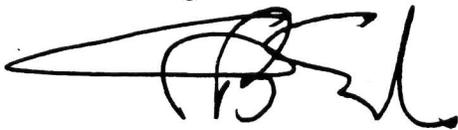

All of us at Two Downtown, Inc. wish you the best of luck on your corporate move to Southern California. Having worked some of our most complex and demanding Special Events together, I can safely say that you will be missed by us and that Los Angeles is getting one of the best laser/music experts in North America.

As you well know, we facilitate Special Events for clients all over the United States and have the opportunity to work with many different vendors and sub-contractors. You and Cece have never let us down and have always exceeded our expectations. In particular, I think of our most recent installation together when you had the misfortune to be in an almost fatal accident with your sound truck and yet you and your crew still made it to the Seattle Sheraton Hotel and Towers on time and completed the evening without a hitch or a complaint. That's what I call professional!

I also appreciate your vast stronghold of knowledge about laser technology as well as being totally up to speed musically. You have the very rare ability to tune into a client's needs and listen to what they want. You're also not afraid to make suggestions when appropriate and make the music and laser effects much better than we could conceive on our own. As if those abilities weren't enough, I'll never forget the day you jumped out of an airplane for us, landed on a beach and delivered a special "line" for the audience. You are incredible.

We can't say enough to thank you for all you've done to support our efforts over the years to bring the absolute best available to our Special Event clients. You've never disappointed us and have always delivered what you promised. If we can refer business your way while in the Los Angeles area we most surely will.

With best regards and best wishes for your new office,

Howard B. Weiner
Vice President
